Call for Papers

ASTM Symposium on User Experience with Elastic-Plastic Test Methods

Papers are needed for the Second Symposium on User Experience with Elastic-Plastic Test Methods to be held 8-9 Nov. 1989 in Orlando, FL. The symposium is sponsored by ASTM standards-writing Committee E-24 on Fracture Testing.

Papers are needed in the following areas: problems encountered with test methods; improvements in equations and analysis; improvements in techniques and methods; extension of specimen size requirements; application of present test methods; application to steels in fracture mode transition; and $J_{IC}$, $J-R$, and CTOD approaches.

Prospective authors are requested to submit a 300- to 500-word abstract and the ASTM Paper Submittal Form no later than 1 Jan. 1989 to Dorothy Savini, ASTM, 1916 Race Street, Philadelphia, PA 19103. For Paper Submittal Forms, contact Ms. Savini at 215/299-5413.

A Special Technical Publication (STP) based on the symposium proceedings is anticipated by ASTM. For more information, contact Prof. James A. Joyce, Mechanical Engineering Department, MS1IC, U.S. Naval Academy, Annapolis, MD 21402, 301/267-3188.

Committee E-24 is one of 140 ASTM technical standards-writing committees. Organized in 1898, ASTM (American Society for Testing and Materials) is one of the largest voluntary standards development systems in the world.

Bonding and Repair of Composites

As polymer-based composites are used in an increasing number of applications, the problems associated with their bonding and repair have grown in importance. In recognition of this interest, Rapra Technology Limited, the largest United Kingdom consultancy specialising in polymers and composites, and Butterworth Scientific Limited, publishers of the internationally renowned journal, Composites, are to organize jointly a one-day seminar on the topic.

Entitled “Bonding and Repair of Composites,” the meeting will take place on Monday, 10th July at the Metropole Hotel, Birmingham, United Kingdom. This date has been chosen to encourage attendance by those visiting the SAMPE European Chapter Meeting commencing at the National Exhibition Centre, Birmingham, on Tuesday, 11th July.

Topics include the following:

- Composite Joints
- Adhesives for Composite Joints
- Bonding in Large Scale Composite Structures
- Repair of Composites
- Damage Assessment and Inspection Techniques
- Repair or Replacement

The organizers are now seeking contributions to the seminar program. Those wishing to present papers are asked to contact Kully Jagit, Seminar Co-ordinator, Rapra Technology Limited, Shawbury, Shrewsbury, Shropshire SY4 4NR, United Kingdom. Telephone: 0939 250383; or John Herriot, Composites, Butterworth Scientific Limited, P.O. Box 63, Westbury House, Bury Street, Guildford GU2 5BH, United Kingdom. Telephone: 0483 300966.
