Purpose and Scope

The objectives of the Journal of Composites Technology & Research are (1) to provide a forum for the presentation, discussion, and dissemination of information on composite materials and their response to the environments in which they are used, especially the engineering and technology of their application to components and structures and (2) to provide a means of communication for researchers, developers, producers, users, suppliers, and professional organizations concerned with composite materials.

The editorial scope includes full-length technical articles, technical notes previously published work, briefs, news articles and technical communications (Research Announcements (World of Composites), technical articles, technical notes, book reviews, letters, and discussions of previously published work.

University of Delaware
Newark, DE 19716

Mr. Dale W. Wilson
Applied Physics Laboratory
Johns Hopkins University
Johns Hopkins Rd.
Laurel, MD 20723-6099

Journal of Composites Technology & Research is published quarterly by ASTM as part of the Testing and Evaluation Series, which includes the Geotechnical Testing Journal (published quarterly). Cement, Concrete, and Aggregates (published semi-annually), and the Journal of Testing and Evaluation (published bimonthly).

General Information
This publication is one of many issued by ASTM in connection with its work in promoting knowledge of the properties and performance of materials, products, systems, and services and in developing standard specifications and test measurement techniques. Much of the information results from voluntary contributions of many of the leading technical authorities from industry, scientific agencies, and government. A list of ASTM publications and additional information will be furnished on request.

Information for Authors
All contributions to the Journal of Composites Technology & Research are subject to editing to bring them into accordance with ASTM style. Technical articles are also subject to peer review. Emphasis is placed on composites technology that bridges the gap between industry and the research and development community. Papers must contribute to the permanent literature, be of immediate interest to ASTM members, or be of general interest to a substantial part of the technical community. Articles that have been published or submitted for publication elsewhere or papers of an advertising or promotional nature cannot be printed in the Journal of Composites Technology & Research. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. Authors should observe the conventions of style explained in the ASTM Style Manual. Since the journal does not request page charges, the author is expected to conform to these standard conventions. The original manuscript and five clear copies, including original illustrations, should be sent to Kathy Deruoga, Manager, Acquisition & Review, ASTM, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959 (610-832-9617). For more information on submitting a paper for publication, see the Additional Information for Contributors section at the back of this issue.

In Appreciation
The high quality of the technical papers in this publication is a tribute not only to the obvious efforts of the authors represented but also to the unheralded, though essential, efforts of their reviewers. It is to the reviewers’ dedication to upholding the high standards of their profession that this note pays tribute. On behalf of ASTM and the authors as well, we acknowledge with appreciation their important contribution to the success of this journal.

MOVING?
To insure uninterrupted service on your CTR subscription, please notify us at least six weeks before you move.

1. Attach your address label from a recent issue in the space provided opposite. (If label is not available, be sure to give your old address, including Zip Code)

2. Print your name membership no., and address below. (Be sure to include Zip Code)

3. Mail entire notice to: ASTM-CTR
   100 Barr Harbor Dr.
   West Conshohocken, PA 19428-2959
