A New Testing Device for Characterizing Anisotropic Response of Soils during Compaction Processes
Cristhian Mendoza, William Ovalle, Bernardo Caicedo, and Inthuorn Sasanakul

Preparation of High-Quality Load-Preserved Fabric Clay Samples for Microstructural Characterizations: A Pragmatic Guide Featuring a 3-D-Printed Oedometer
J. K. Chow and Y. H. Wang

The Geotechnical Testing Journal is online.

TAKE ADVANTAGE OF THESE BENEFITS:
- Search Papers and Authors
- View Abstracts
- View Table of Contents
- Download Individual Papers
- IP access is available

PAST TECHNICAL DIRECTORS

Dr. Ernest T. Selig  
(March 1978 to September 1985)

Dr. Vincent D. Druchen  
(December 1985 to December 1989)

Mr. Paul Knodel  
(March 1990 to December 1992)

Dr. Howard J. Fincus  
(December 1993 to December 1995)

Dr. Holman C. Cherry and Dr. Kenneth R. Damore  
(March 1996 to June 2002)

Dr. Thomas C. Shadden  
(July 2002 to December 2004)

INFORMATION FOR AUTHORS

For details regarding paper submission go to http://gtj.manuscriptcentral.com. The subject matter must not be of a speculative nature and the contents must not include materials of an advertising nature. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. The substance of the paper should not have been published previously in the open literature.

EDITORIAL OBJECTIVES

The Geotechnical Testing Journal is published in six issues per year by ASTM International, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services. Some issues, in whole or in part, may be Special Issues focused on a topic of interest to our readers. Contributions are peer reviewed prior to publication.
