**Contents:**

- **901** A New Hydraulic Fracturing Instrument to Measure In Situ Stress and Its Application in Chahasu Coal Mine—Qiang Xu, Qiongbing Yao, Changhao Shan, and Chuangkai Zheng

- **915** A Novel Proof of Concept Experimental Setup for Seabed-Pipe Interface Friction Measurements—Roba Houhou, Salah Sadek, Shadi Najjar, and Elie Shammas

- **936** Design and Development of Tilt Table-Based In-Flight Simulator for Pseudostatic Loading in a Geotechnical Centrifuge—Pankaj Kumar and B. V. S. Viswanadham

- **961** Development of a Real-Time Monitoring and Calculation Method for TBM Disc-Cutter’s Cutting Force in Complex Ground—Xing Huang, Shaohua Wang, Guanwen Liu, Xinyu Wang, Bin Liu, and Xiaobo Zhang

- **985** Measurement of Physical Parameters for Transient Seepage Assessment of Levees—Lucas A. Walshire and Thomas L. Brandon

- **1005** Triaxial Shear Test for Strength Behavior of Saturated Sand–Steel Interface Based on Proformed Failure Plane—Chencang Liao, Shizuo Liu, and Xiaohi Xia

**TECHNICAL NOTE**

- **1030** Scalp-and-Replacement of Oversize Particles: Laboratory Permeameter Testing—Ganapathiraman Vinath and R. Jonathan Fannin
Contents:

901 A New Hydraulic Fracturing Instrument to Measure In Situ Stress and Its Application in Chahasu Coal Mine—Qiang Xu, Qiongling Yao, Changhao Shan, and Chuangkai Zheng

915 A Novel Proof of Concept Experimental Setup for Seabed-Pipe Interface Friction Measurements—Roba Houhou, Salah Sadek, Shadi Najjar, and Elie Shammas

936 Design and Development of Tilt Table-Based In-Flight Simulator for Pseudostatic Loading in a Geotechnical Centrifuge—Pankaj Kumar and B. V. S. Viswanadham

961 Development of a Real-Time Monitoring and Calculation Method for TBM Disc-Cutter’s Cutting Force in Complex Ground—Xing Huang, Shaohua Wang, Quanfeng Liu, Xinyo Wang, Bin Liu, and Xiaobo Zhang

985 Measurement of Physical Parameters for Transient Seepage Assessment of Levees—Lucas A. Watson and Thomas L. Brandon

1005 Triaxial Shear Test for Strength Behavior of Saturated Sand–Steel Interface Based on Preformed Failure Plane—Chencang Lia, Shi-ao Liu, and Xiaohe Xia

TECHNICAL NOTE

1030 Scalp-and-Replacement of Oversize Particles: Laboratory Permeameter Testing—Ganapathiraman Vinuth and R. Jonathan Fannin
EDITORIAL OBJECTIVES

The Geotechnical Testing Journal is published in six issues per year by ASTM International, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services. Some issues, in whole or in part, may be Special Issues focused on a topic of interest to our readers. Contributions are peer reviewed prior to publication.

PURPOSE AND SCOPE

The purpose of the Geotechnical Testing Journal is (1) to provide a high-quality publication that informs the profession of new developments in soil and rock testing and related fields; (2) to provide a forum for the exchange of information, particularly that which leads to the development of new test procedures; and (3) to stimulate active participation of the profession in the work of ASTM International Committee D18 on Soil and Rock and related committees.

Contributions include papers, technical notes, letters to the editor, discussions of previously published papers, and book reviews. The editorial scope of this journal covers test methods for soil and rock, sampling, nomenclature, and practices relating to the determination of properties and behavior of soil and rock for engineering purposes, and for soil as a medium for plant growth. Topics of interest include: new testing equipment, apparatus, and procedures for both field and laboratory applications; evaluation of existing ASTM International standards and recommendations for new standards for apparatus or test procedures; and test results that give insights into test procedures, techniques, and data interpretation. Topics must be related to soil and rock, but may include use and testing of geosynthetic materials in conjunction with soil and rock, highway materials testing such as aggregate properties or pavement performance measurement, geophysical exploration, marine sediments, groundwater investigations, testing and stabilization of contaminated soils and soil and rock engineering related to waste management.
EXECUTIVE COMMITTEE
Cesar A. Constantino, Ph.D., Chair
Bill Ells, Vice Chair
Bill Griese, Vice Chair
Amer Bin Ahmed, Finance and Audit Committee Chair
John R. Logar, Past Chair
Andrew G. Kireta, Jr., Past Chair
Katharine E. Morgan, President

INFORMATION FOR AUTHORS
For details regarding paper submission go to http://mc04.manuscriptcentral.com/astm-gj). The subject matter must not be of a speculative nature and the contents must not include materials of an advertising nature. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. The substance of the paper should not have been published previously in the open literature. Authors preparing papers for submission should observe the conventions of style explained in the ASTM Style Manual. Since the journal does not request page charges, the author is expected to conform to these standard conventions for style and the inclusion of complete references and high-quality figures. SI units are to be used throughout; if data were not measured in SI units, a note should appear to that effect and the original units should be included in parentheses after the SI units.

IN APPRECIATION OF THE REVIEWERS
The high quality of the papers that appear in this publication is a tribute not only to the obvious efforts of the authors represented but to the unheralded, though essential, efforts of their reviewers. It is to the reviewers’ dedication to upholding the high standards of their profession that this note pays tribute. On behalf of ASTM International and the authors as well, we acknowledge with appreciation their important contribution to the success of this journal.

AWARDS FOR PAPERS
Papers are eligible for the following ASTM International awards:

- The C.A. Hogentogler Award — papers on soils for engineering purposes.
- The Sanford E. Thompson Award — papers on concrete and concrete aggregates.
- The Richard L. Templin Award — papers on new and useful testing procedures and apparatus.
- The Geotechnical Testing Journal Award — papers on the practice of geotechnical testing.

PAST TECHNICAL EDITORS
Dr. Ernest T. Sellig (March 1978 to September 1985)
Dr. Vincent P. Drnevich (December 1985 to December 1989)
Mr. Paul Knodel (March 1990 to December 1992)
Dr. Howard J. Pincus (March 1993 to December 1995)
Dr. Ronald C. Chaney and Dr. Kenneth R. Demars (March 1996 to June 2002)
Dr. Thomas C. Sheahan (July 2002 to December 2008)
Mr. L. David Suits (September 2002 to December 2017)

Subscriptions are in an online-only format
Individual subscriptions
1 year online access $267.00
Institutional subscriptions
(one geographic site via IP access) 1 year online access $501.00
Single copies $55.00
