Lowell J. Levine, D.D.S., chief consultant in forensic dentistry, Office of Chief Medical Examiner, New York City, and a dental practitioner in Bayside, New York, has been elected as the President-elect of the American Academy of Forensic Sciences.

Dr. Levine, who served recently as a consultant to the Select Committee on Assassinations, U.S. House of Representatives, is a graduate of Hobart and New York University College of Dentistry. He is also a clinical associate professor of the Department of Behavioral Sciences and Community Health and of the Department of Forensic Medicine at New York University’s Dental Center and School of Medicine.

A noted guest lecturer, author, and expert witness, Dr. Levine is also chief forensic odontologist, Office of Chief Medical Examiner, Nassau County, New York, and is frequently called upon to identify victims of aircraft accidents and other disasters.

He is a trustee and treasurer of the Forensic Sciences Foundations, Washington, D.C., a member of the editorial board of the Journal of Forensic Sciences, a Diplomate of the American Board of Forensic Odontology, and a member of the New York and American Dental Associations.

Dr. Levine, a resident of Huntington Station, New York, will be installed as president of the Academy at its Annual Meeting in New Orleans, February, 1980, and will take office on 1 July 1980. He will be the first odontologist to hold that office since the Academy was established in 1948.
EDITORIAL COMMUNICATIONS

Manuscripts, books for review, and inquiries concerning material to be published should be forwarded to Abel M. Dominguez, Ph.D., Editor, Journal of Forensic Sciences, 11400 Rockville Pike, Suite 502, Rockville, Md. 20852.

Manuscripts must be typewritten, double or triple spaced, on only one side of the paper. An original and three carbon copies of the manuscript should be provided. (Machine copies are also acceptable if they are Xerox-equivalent in quality.) Glossy prints of photographs and original line drawings of any illustrations employed should accompany the original copy of the manuscript; also, each copy should include a set of the illustrations. The number of illustrations allowed will be based on the opinions of editorial reviewers. A letter giving the information requested in the Offer of Manuscript (see below) should accompany the submission. The manuscript or its equivalent must not have been submitted for publication elsewhere. Receipt of a manuscript will be acknowledged immediately. Books for review may be sent to the editor, book review editor, or the managing editor of ASTM.

Prior to preparation of a manuscript, authors should obtain an ASTM Style Manual and adhere to the germane regulations regarding copy requirements, style, and format. Manuscripts will be edited to bring them into conformance with ASTM style and format or returned to authors if major revisions are necessary. Contributors are urged to review manuscripts carefully with respect to literary merit and to correct errors in diction and faults in arrangement, to eliminate redundancies, etc., prior to submission.

Material quoted from another publication must be quoted exactly and referenced or, if taken largely from another publication, whether quoted exactly or abstracted, must be credited to the original author.

Offer of Manuscript to Journal of Forensic Sciences for Publication
1. Title of paper ____________________________________________________________
2. Authors [give degrees] ______________________________________________________
3. Is the paper to be presented, or has it been presented, at an AAFS annual meeting? Yes ( ) No ( )
   a. Date of previous or proposed presentation ____________________________
   b. Program placement: Section __________________ Plenary Session __________
      Other ____________________________
   c. Date and place of any previous presentation other than AAFS annual meeting ________________
4. Author obligation to the Journal of Forensic Sciences. American Academy of Forensic Sciences, and American Society for Testing and Materials: The Journal of Forensic Sciences reserves the right of first publication of any paper accepted for presentation at an annual meeting of the American Academy of Forensic Sciences, and the author must not submit it elsewhere for publication for a period of six months after the annual meeting. If the manuscript has not been accepted or is rejected for publication during those six months, the interest of the Journal in the manuscript automatically terminates. Upon acceptance for publication a paper becomes the copyright property of the American Society for Testing and Materials.
5. Manuscripts of original and special articles are accepted for consideration with the understanding that they, or their essential substance, tables, or figures, have been neither published nor submitted to any other publication, nor will any such publication or submission to another journal take place unless the Journal of Forensic Sciences declines to publish the manuscript. This restriction does not apply to abstracts published in connection with meetings or press reports resulting from formal and public oral presentation.
6. Acceptance of a submitted manuscript for publication is the responsibility of the publications committee of the Journal of Forensic Sciences and the editor and occurs only after review of the paper in accordance with the operating rules of the publications committee. Review of submitted manuscripts may be expected to be complete within 90 days.
7. Accepted manuscripts must be in the hands of the publisher at least five months prior to publication, for example, the deadline for receipt of an edited manuscript for the January 15 issue is August 15.
8. The offer of manuscript form must be signed by the first author to comply with copyright regulations.
Announcements

The Toxicology Section of the American Academy of Forensic Sciences announces the appointment of Dr. James Garriott as the director of the Toxicology Placement Service. This will be a voluntary service providing employee-employer contact in the field of toxicology. Dr. Garriott has replaced Dr. Morton F. Mason as director of the service. The service will provide on a confidential basis the curriculum vitae of prospective applicants to employers registered with the office and will (1) maintain a list of applicants who are seeking employment in toxicology, (2) maintain a list of employment opportunities, (3) provide regular contact for potential employees and employers, and (4) provide counsel and personal interviews to both the prospective applicants and employers at the Academy meeting.

Both employees and employers are encouraged to register their names and, for employers, their vacancies, with Dr. Garriott. This service is entirely free to both applicants and employers. Its success depends on your cooperation. Address all inquiries to:

James Garriott, Ph.D.
Director, Toxicology Placement Service
Institute of Forensic Sciences
P.O. Box 35728
Dallas, Tex. 75235
(Phone: Office: 214/638-1131)

Grant-in-Aid

The education of specialists in the forensic sciences continues to be a challenge to many of us. The increasing sophistication of methods in forensic toxicology promises to add, to the judicial process, information which was not thought to be possible as late as the 1960s. The Society of Forensic Toxicologists has dedicated many of its efforts to continuing effective education in the field. With this in mind, the Society announces that a grant-in-aid will be awarded to a graduate or postgraduate student pursuing studies in forensic toxicology. A single award will be made annually to the candidate pursuing projects thought to be of greatest benefit to the profession of forensic toxicology and to the forensic sciences as a whole.

Candidates seeking consideration for such an award should submit, before 31 Dec. 1979, a complete curriculum of their studies, title and progress of their current project, and a listing of their previous education and technical accomplishments to:

Dr. Vincent deP. Lynch
Chairman, Educational Committee, S.O.F.T.
St. Johns University, College of Pharmacy
Grand Central and Utopia Parkways
Jamaica, N.Y. 11439

Annual Meeting

The Canadian Society of Forensic Science will be holding its annual meeting at the Ritz Carlton Hotel, Montreal, Canada, on 15–19 Oct. 1979. A two-day symposium entitled “Dentistry and the Law” will be held on the 15th and 16th. For further information contact:

Dr. R. B. J. Dorion
President, Canadian Society of Forensic Science
Suite 710-D, Sun Life Bldg.
Montreal, P.Q., Canada H3B 2V6
Announcements

Annual Meeting

The 6th Annual Meeting of the Federation of Analytical Chemistry and Spectroscopy Societies (FACSS) will be held at the Philadelphia Sheraton Hotel, Philadelphia, Pa., on 16–21 Sept. 1979.

The scientific program encompasses all branches of analytical chemistry. Plenary lectures will be presented by Professor C. Th. J. Alkemade on “To Catch a Single Atom” and Professor Bryce Crawford on “The Present State of Diagnostic Molecular Spectroscopy.” There will be approximately 350 papers presented in individual symposia devoted to particular areas and specific applications. Some symposia topics are these:

- Forensic Analysis (2 days)
- Inductively Coupled Plasmas in Analysis (2 days)
- Atomic Absorption Spectrometry (2 days)
- Analytical Applications of Photoacoustic Spectrometry (1½ days)
- Gas and Liquid Chromatography (2½ days)
- Infrared Spectroscopy (4½ days)
- Atomic Fluorescence Spectrometry (1½ days)
- Atomic Emission Spectrometry (1½ days)
- Drug Analysis (½ day)
- Advancement in Clinical Instrumentation (1 day)
- Trace Analysis in Biological Fluids by AAS (1 day)
- Environmental Analysis (½ day)
- Hybrid Methods Using GC-LC-IR (½ day)
- Mass Spectrometry (1 day)
- Traceability—Regulation and Measurement (½ day)

In addition to these symposia, the Anachem and Lippincott Awards will be presented to Dr. J. J. Kirkland, E. I. DuPont, and Professor E. Bright Wilson, Harvard University, respectively.

An integral part of the meeting will be several workshops, SAS and ACS short courses, educational films, and instrument exhibits.

For further details and registration, please contact Douglas W. Robinson, Arrangement Chairman, Pennwalt Corporation, Box C, King of Prussia, Pa. 19406 or Theodore C. Rains, Registration Chairman, National Bureau of Standards, Room B222, Chemistry Building, Washington, D.C. 20234.

International Meetings

The IXth Congress of the European Association of Poison Control Centers (EAPCC) and the European Meeting of The International Association of Forensic Toxicologists (TIAFT) will be held in Thessaloniki, Greece, on 24–27 Aug. 1980 under the auspices of the World Federation of Associations of Clinical Toxicology Centers and Poison Control Centers and The International Association of Forensic Toxicologists. These meetings will bring together those scientists who are concerned with the care and treatment of poisoned patients as well as with the identification and measurement of poison. The scientific program will include free presentations, invited lectures, introductions, and symposia. For further details, write to:

Dr. An. Kovatsis
University of Thessaloniki, Greece
