Journal of Forensic Sciences
Subject Index to Volume 30
1985

A

Accelerants
Using absorbents to collect hydrocarbon accelerants from concrete (Tontarski), Oct., 1230

Accidents
Engineering aspect of automobile accident reconstruction using computer simulation (Chi and Vossoughi), July, 814

Fatal occupational accidents—the five-year Metro Dade County experience, 1979–1983 (Copeland), April, 494

Strut fracture in a Bjork-Shiley aortic valve prosthesis (Lifschultz and Donoghue), Oct., 1244

Acquired immunodeficiency syndrome
Intravenous amphetamine abuse, primary cerebral mucormycosis, and acquired immunodeficiency (Micozzi and Wettl), April, 504

Age determination—see Human identification

Aircraft
Identification via dental remains: Pan American flight 759 (Barsley, Carr, Cottone, and Cuminate), Jan., 128

Alcohol
Blood alcohol concentration determined from urine samples as a practical equivalent or alternative to blood and breath alcohol tests (Biasotti and Valentine), Jan., 194

Observations on ToxTrap silica gel breath capture tubes for alcohol analysis (Bergh), Jan., 186

Amobarbital
Toxicological analysis of amobarbital and glutethimide from bone tissue (Benko), July, 708

Ammunition—see Ballistics

Amphetamine
Di-(β-phenylisopropyl)amine in illicit amphetamine (Huizer, Brusse, and Poortman-van der Meer), April, 427

Intravenous amphetamine abuse, primary cerebral mucormycosis, and acquired immunodeficiency (Micozzi and Wettl), April, 504

Anesthetics
Procedure for the investigation of anesthetic/surgical deaths (Reay, Eisele, Ward, Horton, and Bonnell), July, 822

Antigen systems
Evaluation of antisera for bloodstain grouping I. ABH, MN, and Rh (Gaensslen, Lee, Pagliaro, and Bremscr), July, 632

Evaluation of antisera for bloodstain grouping II. Ss, Kell, Duffy, Kidd, and Gm/Km (Gaensslen, Lee, Pagliaro, Bremscr, and Carroll-Reho), July, 655

Archaeology—see also Physical anthropology
Analysis of a prehistoric homicide from Northern California (Murad and Mertz), July, 948

Arson
Using absorbents to collect hydrocarbon accelerants from concrete (Tontarski), Oct., 1230

Women and arson: a demographic study (Harmon, Rosner, and Weideright), April, 567

Asphyxia
Correlation of circumstances with pathological findings in asphyxial deaths by hanging (Luke, Reay, Eisele, and Bonnell), Oct., 1140

Death at high altitude in the hypobaric chamber (Spencer, Dixon, and Wright), Jan., 243

Assassination—see Homicide

Automobiles
Engineering aspect of automobile accident reconstruction using computer simulation (Chi and Vossoughi), July, 814

B

Bacteria
Use of *bacillus subtilis var. aterrimum* in a new method of tagging (Davidson, Best, and Oliver), April, 531

Ballistics—see also Wound ballistics
Effects of range, caliber, barrel length, and rifling on pellet patterns produced by shotshell ammunition (Speak, Kerr, and Rowe), April, 412

Pellet patterns fired by sawed-off shotguns (Moreau, Nickels, Wray, Bottemiller, and Rowe), Jan., 137

Study of .22 caliber rimfire exploding bullets: effect in ordnance gelatin (Josselson, Johnson,
Ballistics—Continued
Washington, Wagner, Garner, Johnson, and Lundy), July, 760

Balloons
Investigation of hot air balloon fatalities (McConnell, Smialek, and Capron), April, 350

Ballpoint pens—see Pens

Benzoylecgonine
Brain concentrations of cocaine and benzoylecgonine in fatal cases (Spiehler and Reed), Oct., 1003

Big game animals
Phenotyping phosphoglucose isomerase in West Coast cervids for species identification and individualization (Pex and Wolfe), Jan., 114

Bite marks
Forensic science use of reflective ultraviolet photography (Krauss and Warlen), Jan., 262

Blood—see also Genetic typing
Digoxin-like immunoreactive substance in postmortem blood of infants and children (Spiehler, Fischer, and Richards), Jan., 86
Discontinuous polyacrylamide gel electrophoresis for typing haptoglobin in bloodstains (Budowle and Chow), July, 893
Effect of sodium fluoride on cholinesterase activity in postmortem blood (Baselt, Shaw, and McEvily), Oct., 1206
Evaluation of fused silica capillary columns for the screening of basic drugs in postmortem blood: qualitative and quantitative analysis (Koves and Wells), July, 692
Identification of fetal blood stains by enzyme-linked immunosorbent assay for human α-fetoprotein (Katazama, Sato, Tamaki, Tsutsuji, Yada, and Oya), Oct., 1210
Isotachophoretic analysis of bloodstains: differentiation of human, menstrual, bovine, and ovine bloods (Alsawaf and Tu), July, 822

Body fluids
Enzyme assays for the identification of gastric fluid (Lee, Gaensslen, Galvin, and Pagliaro), Jan., 97

Bones—see Musculoskeletal system

Book reviews—Continued
Found: Human Remains by Skinner and Lazenby (Kerley), April 586
Hazardous Metals in Toxicology by Vercruysse (Garriott), July, 969
Human Identification Case Studies in Forensic Anthropology by Rathburn and Buikstra (Reay), Oct., 1289
Inside the Criminal Mind by Samenow (Wein-stock), April, 589
Instrumental Data for Drug Analysis—Volumes 1 and 2 by Mills (Blanket), April, 584
Principles of Forensic Handwriting Identification & Testimony by Smith (Flynn), Oct., 1291
Sexual Dynamics of Anti-Social Behavior by Schlesinger and Drucifer (Drucker), April, 591
Techniques of Legal Investigation by Golec (Reyna), Oct., 1294
Testifying in Court by Horsely (Mills), April, 587
Topics in Forensic and Analytical Toxicology by Maes (Garriott), July, 970

Brain
Brain function and writing with the unaccustomed left hand (Dawson), Jan., 167
Breath-alcohol testing devices
In vitro study of the accuracy and precision of Breathalyzer® models 900, 900A, and 1000 (Caplan, Yohman, and Schaefer), Oct., 1058
Observations on ToxTrap silica gel breath capture tubes for alcohol and analysis (Bergh), Jan., 186

Burns (injuries)
Ultrastructure of the electric burn in man: a transmission electron microscopy-scanning electron microscopy study (Torre and Varetto), April, 448

C
Cannabis—see Marijuana
Cardiovascular system
Cardiovascular abnormalities in children: a ten-year forensic pathologic study (Rajs), Oct., 1157
Mechanical failure of a mitral valve prosthesis: an unusual case of sudden unexpected death (Clark), April, 552

Cartilage—see Musculoskeletal system

Chemical analysis
Analytical characterization of isomeroin (Beazley), July, 915
1H nuclear magnetic resonance of heroin’s D ring (Allen, Cooper, and Moore), July, 908
Pyrolysis capillary gas chromatography/mass spectrometry for analysis of automotive paints (McMinn, Carlson, and Munson), Oct., 1064
Toxicological analysis of amobarbital and glutathimide from bone tissue (Benkő), July, 708

Child abuse
Infanticide by starvation: calculation of caloric deficit to determine degree of deprivation (Meade and Brissie), Oct., 1263

Children
Cardiovascular abnormalities in children: a ten-year forensic pathologic study (Rajs), Oct., 1157
Children—Continued
Childhood suicide: a report of four cases (Cope-
land), July, 965
In vivo measurements of facial tissue thicknesses 
in American caucasoid children (Hodson, Lieb-
erman, and Wright), Oct., 1100
Rare suicidal case of a ten-year-old child stabbing 
himself in the throat (Hasekura, Kukushima, 
Yonemura, and Ota), Oct., 1269
Cholinesterase
Effect of sodium fluoride on cholinesterase activity 
in postmortem blood (Baselt, Shaw, and Mc-
Evily), Oct., 1206
Chromatographic analysis—see also Chemical anal-
ysis
Analysis of soil samples by reverse phase-high per-
formance liquid chromatography using wave-
length ratioing (Siegel and Precord), April, 511
Illicitly imported heroin products: some physical 
and chemical features indicative of their origin. 
Part II (O'Neil and Gough), July, 681
Retrieval of analytical data and substance identi-
fication in systematic toxicological analysis by 
the mean list length approach (Franke, de 
Zeeuw, and Schepers), Oct., 1074
Cocaine
Brain concentrations of cocaine and benzoyl-
ecgonine in fatal cases (Spiehler and Reed), 
Oct., 1003
Cocaine-induced psychosis and sudden death in 
recreational cocaine users (Wetli and Fishbain), 
July, 873
Epidemic of cocaine associated deaths in Utah 
(Sander, Ryser, Lamoreaux, and Raleigh), 
April, 478
Codeine
Deaths as a result of a combination of codeine and 
glutethimide (Havier and Lin), April, 563
Comparative analysis
Comparison of round-hole perforations of postage 
stamps (Casey Owens), Oct., 1272
Diagnostic study of robbers (Harry), Jan., 50
Epidemic of cocaine associated deaths in Utah 
(Sander, Ryser, Lamoreaux, and Raleigh), 
April, 478
Statistical method for assessing soil comparisons 
(Wanogho, Gettinby, Caddy, and Robertson), 
July, 864
Two bite mark cases with inadequate scale refer-
ences (Bernstein), July, 958
Variations in vitreous humor chemical values as a 
result of instrumentation (Coe and Apple), July, 
823
Competency
Geriatric felons examined at a forensic psychiatry 
clinic (Rosner, Wiederlight, and Schneider), 
July, 730
Physicians’ confusion demonstrated by competen-
cy requests (Weinstock, Copelan, and Bag-
hen), Jan., 37
Computers
Biomedical image processing for age measure-
ments of intact teeth (Sognnaes, Gratt, and 
Papin), Oct., 1082
Computers—Continued
Engineering aspect of automobile reconstruction using computer simulation (Chi and 
Vosoughi), July, 814
Microcomputers in forensic science (Neiburger), 
July, 881
Retrieval of analytical data and substance identi-
fication in systematic toxicological analysis by 
the mean list length approach (Franke, de 
Zeeuw, and Schepers), Oct., 1074
Controlled substances
Solid dosage forms: 1975-1983 (Fanzos), Oct., 
1194
Crania—see Musculoskeletal system
Crashes
Identification via dental remains: Pan American 
flight 759 (Barsley, Carr, Cottone, and Cumi-
nale), Jan., 128
Crimalistics
Blood alcohol concentration determined from 
urine samples as a practical equivalent or alter-
native to blood and breath alcohol tests (Biasotti 
and Valentino), Jan., 194
Capacities, uses, and effects of the nation’s criminalistics laboratories (Peterson, Mihaj-
lovic, and Bedrosian), Jan., 10
Comparison of argon-ion, copper-vapor, and 
frequency-doubled neodymium:yttrium alumi-
num garnet (Nd:YAG) lasers for latent finger-
print development (Menzel), April, 383
Detectability of group-specific component (Gc) in 
aged bloodstains (Podlecki and Stolorow), 
April, 398
Effects of range, caliber, barrel length, and rifling 
on pellet patterns produced by shotgun ammu-
nition (Speak, Kerr, and Rowe), April, 412
Evaluation of criminalist’s attitudes toward the 
Journal of Forensic Sciences (Shapiro and 
Angelos), Jan., 269
Evaluation of gamma-glutamyl transpeptidase 
(GGT) and p30 determinations for the identifi-
cation of semen on postcoital vaginal swabs 
(Stubbings and Newall), July, 604
Fluorescence of petroleum products I. three-
dimensional fluorescence plots of motor oils and 
lubricants (Siegel, Fisher, Gilna, Spadafora, 
and Krupp), July, 741
Forensic psychiatric evaluations of women accused of felonies: a three-year descriptive study (Ros-
ner, Wiederlight, and Wiezcorek), July, 721
Geriatric felons examined at a forensic psychiatry 
clinic (Rosner, Wiederlight, and Schneider), 
July, 730
Identification of a murder weapon by a peculiar 
blunt force injury pattern and histochemical 
analysis (Zugibe and Costello), Jan., 239
Interesting gunshot residue pattern (Briner), July, 
945
Laser detection of latent fingerprints: difficult sur-
faces (Burt and Menzel), April, 364
Latent fingerprint development by frequency-
doubled neodymium:yttrium aluminum garnet 
(Nd:YAG) laser: benzo(\textit{f})ninhydrin (Menzel 
and Almog), April, 371
Criminalistics—Continued
Occurrence of trace evidence in one examiner’s casework (Petraco), April, 485
Pellet patterns fired by sawed-off shotguns (Moreau, Nickels, Wray, Bottemiller, and Rowe), Jan., 137
Phenotyping phosphoglucose isomerase in West Coast cervids for species identification and individualization (Pex and Wolfe), Jan., 114
Retention of glass particles on woven fabrics (Brewster, Thorpe, Gettinby, and Caddy), July, 798
Solid dosage forms: 1975-1983 (Franzosa), Oct., 1194
Study of .22 caliber rimfire exploding bullets: effect on ordnance gelatin (Josselson, Johnson, Washington, Wagner, Garner, Johnson, and Lundy), July, 760
Technical shortcomings of Doppler traffic radar (Goodson), Oct., 1186
Using absorbents to collect hydrocarbon accelerants from concrete (Tontarski), Oct., 1230

D-E

Death—Continued
Gical deaths (Reay, Eisele, Ward, Horton, and Bonnell), July, 822
Sudden death in hemodialysis patients (Cohle and Graham), Jan., 158

Decomposition
Decomposition of buried bodies and methods that may aid in their location (Rodriguez and Bass), July, 836
Degree of deterioration of associated death scene material (Morse and Dailey), Jan., 119

Decompression
Death at high altitude in the hypobaric chamber (Spencer, Dixon, and Wright), Jan., 243

Demography
Adjustment of the not guilty by reason of insanity (NGRI) outpatient: an initial report (Cavannaugh and Wasyliw), Jan., 24

Forensic psychiatric evaluations of women accused of felonies: a three-year descriptive study (Roser, Wiederlight, and Wicceorek), July, 721
Women and arson: a demographic study (Harmon, Rosner, and Weiderlight), April, 567

Dentition
Biomedical image processing for age measurements of intact teeth (Sognnaes, Gratt, and Papin), Oct., 1082

Dialysis
Sudden death in hemodialysis patients (Cohle and Graham), Jan., 158

Digoxin
Postmortem redistribution of digoxin in rats (Koren and MacLeod), Jan., 92

Digoxin-like immunoreactive substance (DLIS)
Digoxin-like immunoreactive substance in postmortem blood of infants and children (Spiehler, Fischer, and Richards), Jan., 86

Di-(β-phenylisopropyl)amine
Di-(β-phenylisopropyl)amine in illicit amphetamine (Huizer, Brusse, and Poortman-van der Meer), April, 427

Driving (motor vehicle operation)
Blood alcohol concentration determined from urine samples as a practical equivalent or alternative to blood and breath alcohol tests (Biasotti and Valentine), Jan., 194

Technical shortcomings of Doppler traffic radar (Goodson), Oct., 1186

Drowning
Scanning electron microscopy study of the lung in drowning (Torre and Varetto), April, 456

Drug identification
Isolation and identification of precursors and reaction products in the clandestine manufacture of methaqualone and mecloqualone (Angelos and Meyers), Oct., 1022

Retrieval of analytical data and substance identification in systematic toxicological analysis by the mean list length approach (Franke, de Zeeuw, and Schepers), Oct., 1074

Drugs—see Toxicology and specific headings

Editoral
In the land of Agog: an allegory for the expert witness (Starrs), April, 289
Electrophoresis
Agarose gel electrophoretic method for typing phosphoglucomutase-1, esterase D, or glyoxalase I (Budowle), Oct., 1216
Immunofixation of complement component C3 phenotypes in bloodstains after cellulose acetate electrophoresis (Morrison, Noppinger, and Brown), Oct., 1221
Simultaneous electrophoretic determination of phosphoglucomutase subtypes, adenosine deaminase, erythrocyte acid phosphatase, and adenyate kinase enzyme phenotypes (Wolson and Stuve), July, 904

Elopements
Medicolegal problems of elopement from psychiatric units (Molnar, Keitner, and Swindall), Jan., 44

Embolioms
Air embolism complicating percutaneous ultrasonic lithotripsy (Hobin), Oct., 1284
Bone marrow emboli versus fat emboli as the cause of unexpected death (Perrot and Froede), April, 338
Subcutaneous death caused by embolization of trophoblast from hydatidiform mole (Cohle and Petty), Oct., 1279

Engineering
Engineering aspect of automobile accident reconstruction using computer simulation (Chi and Vossoughi), July, 814
Factors affecting the refractive index distribution of window glass (Brown), July, 806

Enzymes
Enzyme assays for the identification of gastric fluid (Lee, Gaensslen, Galvin, and Pagliaro), Jan., 97

Erasures
Erasable ink: its ease of erasability and its permanence (Throckmorton), April, 526

Ethanol—see Alcohol

Experimentation
Degree of deterioration of associated death scene material (Morse and Dailey), Jan., 119

Expert witnesses—see Witnesses

Explosives
Analysis of explosives by tandem mass spectrometry (McLuckey, Glish, and Carter), July, 773
Collection of trace evidence from bombing victims at autopsy (Laposata), July, 789

Extraction—see also Drug identification
Aqueous-organic extraction method for the isolation and identification of psilocin from hallucinogenic mushrooms (Casale), Jan., 247

Fabrics
Retention of glass particles on woven fabrics (Brewster, Thorpe, Gettinby, and Caddy), July, 796

Fingerprints—Continued
frequency-doubled neodymium:yttrium aluminum garnet (Nd:YAG) lasers for latent fingerprint development (Menzel), April, 383
Laser detection of latent fingerprints: difficult surfaces (Burt and Menzel), April, 364
Latent fingerprint development by frequency-doubled neodymium:yttrium aluminum garnet (Nd:YAG) laser: benzo(f)ninhydrin (Menzel and Almog), April, 371

Fires
Aspects of the investigation of the chemical processes of self-heating as a fire cause by means of quantitative thermal analysis (Hellmiss and Schwanebeck), April, 535
Free radical production from controlled low-energy fires: toxicity considerations (Lowry, Peterson, Petty, and Badgett), Jan., 73
Studies of toxic gas production during actual structural fires in the Dallas area (Lowry, Juarez, Petty, and Roberts), Jan., 59

Fluorescence
Fluorescence of petroleum products I. three-dimensional fluorescence plots of motor oils and lubricants (Siegel, Fisher, Gilna, Spadafora, and Krupp), July, 741

Footprints
Correlation between shoeprint measurements and actual sneaker size (VanHoven), Oct., 1233

Footwear
Correlation between shoeprint measurements and actual sneaker size (VanHoven), Oct., 1233

Forensic anthropology
In vivo measurements of facial tissue thicknesses in American caucasoid children (Hodson, Lieberman, and Wright), Oct., 1100

Forensic science
Agarose gel electrophoretic method for typing phosphoglucomutase-1, esterase D, or glyoxalase I (Budowle), Oct., 1216
Analysis of explosives by tandem mass spectrometry (McLuckey, Glish, and Carter), July, 773
Analysis of soil samples by reverse phase-high performance liquid chromatography using wavelength ratioing (Siegel and Precord), April, 511
Aspects of the investigation of the chemical processes of self-heating as a fire caused by means of quantitative thermal analysis (Hellmiss and Schwanebeck), April, 535
Correlation between shoeprint measurements and actual sneaker size (VanHoven), Oct., 1233
Degree of deterioration of associated death scene material (Morse and Dailey), Jan., 119
Effect of differences in gene frequency on probability of paternity (Reading and Reisner), Oct., 1130
Enzyme assays for the identification of gastric fluid (Lee, Gaensslen, Galvin, and Pagliaro), Jan., 97
Free radical production from controlled low-energy fires: toxicity considerations (Lowry, Peterson, Petty, and Badgett), Jan., 73
Immunofixation of complement component C3 phenotypes in bloodstains after cellulose acetate
Forensic science—Continued
electrophoresis (Morrison, Noppinger, and
Brown), Oct., 1221
Investigation of hot air balloon fatalities (McCon-
nell, Smialek, and Capron), April, 350
In vitro study of the accuracy and precision of
Breathalyzer® models 900, 900A, and 1000
(Caplan, Yohman, and Schaefer), Oct., 1058
Measurement of human hair oxidation by Fourier
transform infrared spectroscopy (Brenner,
Squires, Garry, and Tumosa), April, 420
Medical diagnosis versus legal determination of
death (Gorman), Jan., 150
Microcomputers in forensic science (Neiburger),
July, 881
Pyrolysis capillary gas chromatography/mass
spectrometry for analysis of automotive paints
(McMinn, Carlson, and Munson), Oct., 1064
Shadow positioning technique: a method for post-
mortem identification (Fitzpatrick and Maca-
luso), Oct., 1226
Statistical method for assessing soil comparisons
(Wanogho, Gettinby, Caddy, and Robertson),
July, 864
Studies of toxic gas production during actual
structural fires in the Dallas area (Lowry, Juarez,
Petty, and Roberts), Jan., 59
Use of bacillus subtilis var. aterrimus in a new
method of tagging (Davidson, Best, and Oliver),
April, 531
Free radicals
Free radical production from controlled low-
energy fires: toxicity considerations (Lowry,
Peterson, Petty, and Badgett), Jan., 73
Freezing
Effects of freezing and frozen storage on histori-
ological characteristics of canine tissues (Baraibar
and Schoning), April, 439

G-H

Gas chromatography—see Chromatographic ana-
lysis
Ballpoint ink age determination by volatile
component comparison—a preliminary study
(Stewart), April, 405
Gas chromatography/mass spectrometry—see
Chemical analysis
Gases
Studies of toxic gas production during actual
structural fires in the Dallas area (Lowry, Juarez,
Petty, and Roberts), Jan., 59
Genetic markers
Simultaneous electrophoretic determination of
phosphoglucomutase subtypes, adenosine de-
maminase, erythrocyte acid phosphatase, and
adenylate kinase enzyme phenotypes (Wolson
and Stuver), July, 904
Genetic typing
Agarose gel electrophoretic method for typing
phosphoglucomutase-1, esterase D, or glyox-
alase 1 (Budowle), Oct., 1216
Genetic typing—Continued
Detectability of group-specific component (Gc)
in aged bloodstains (Podlecki and Stolorow),
April, 398
Determination of ABH secretor status by an elec-
tronic quantitation method (Matsuzawa, Ko-
bayashi, Kobayashi, and Suzuki), July, 898
Evaluation of antisera for bloodstain grouping I.
ABH, MN, RH (Gaensslen, Lee, Pagliaro, and
Bremser), July, 632
Evaluation of antisera for bloodstain grouping II.
SS, Kell, Duffy, Kidd, and GM/Km (Gaensslen,
Lee, Pagliaro, Bremser, and Carroll-Reho),
July, 655
Examination of the correlation of groupings in
blood and semen (Fowler and Scott), Jan., 103
Immunofixation of complement component C3
phenotypes in bloodstains after cellulose acetate
electrophoresis (Morrison, Noppinger, and
Brown), Oct., 1221
Secreted blood group substances: distributions in
semen and stabilities in dried semen stains,
Oct., 1119
Geriatrics
Geriatric felons examined at a forensic psychiatry
clinic (Rosner, Wiederlight, and Schneider),
July, 730
Glass
Factors affecting the refractive index distribution
of window glass (Brown), July, 806
Retention of glass particles on woven fabrics
(Brewster, Thorpe, Gettinby, and Caddy), July,
798
Glutethimide
Deaths as a result of a combination of codeine and
glutethimide (Havier and Lin), April, 563
Toxicological analysis of amobarbital and glute-
thimide from bone tissue (Benkd), July, 708
Group-specific component
Detectability of group-specific component (Gc) in
aged bloodstains (Podlecki and Stolorow),
April, 398
Gunshot residues
Interesting gunshot residue pattern (Briner),
July, 945
Hair
Measurement of human hair oxidation by Fourier
transform infrared spectroscopy (Brenner,
Squires, Garry, and Tumosa), April, 420
Handedness
Brain function and writing with the unaccustomed
left hand (Dawson), Jan., 167
Handprinting—see Handwriting
Handwriting
Brain function and writing with the unaccustomed
left hand (Dawson), Jan., 167
Felt tip pen writing: problems of identification
(Masson), Jan., 172
Haptoglobin
Discontinuous polyacrylamide gel electrophoresis
for typing haptoglobin in bloodstains (Budowle
and Chow), July, 893
Hemorrhage
Correlation of circumstances with pathological
Hemorrhage—Continued
findings in asphyxial deaths by hanging (Luke, Reay, Eisele, and Bonnell), Oct., 1140

Heroin
$^1$H nuclear magnetic resonance of heroin's D ring (Allen, Cooper, and Moore), July, 908
Illicitly imported heroin products: some physical and chemical features indicative of their origin. Part II (O'Neil and Gough), July, 681
Pyrolysis products of heroin (Cook and Brine), Jan., 251

High performance liquid chromatography—see Chromatographic analysis

Homicide
Analysis of a prehistoric homicide from Northern California (Murad and Mertz), July, 948
Fates of assailants of U.S. presidents (Felthous), Jan., 31
Female homicide-suicide perpetrators: a controlled study (Fishbain, Rao, and Aldrich), Oct., 1148
Homicide by intravenous injection of naphtha (Case, Poklis, and Mackell), Jan., 208

Human identification
Age estimation from the rib by phase analysis: white females (Iscan, Loth, and Wright), July, 853
Case involving differentiation of deer and human bone fragments (Owsley, Mires, and Keith), April, 572
Determination of sex with a discriminant analysis of new pelvic bone measurements: Part II (Schulter-Ellis, Hayek, and Schmidt), Jan., 178
Identification via dental remains: Pan American flight 759 (Barron, Carr, Cottone, and Cumminale), Jan., 128
In vivo measurements of facial tissue thicknesses in American caucasoid children (Hodson, Lieberman, and Wright), Oct., 1100
Metropolitan forensic anthropology team (MFAT) case studies in identification: 3. identification of John J. Sullivan, the missing journalist (Zugibe, Taylor, Weg, DiBennerdo, Costello, and DeForest), Jan., 221
Osteometric analysis of sexual dimorphism in the sternum end of the rib (Scan), Oct., 1090
Shadow positioning technique: a method for postmortem identification (Fitzpatrick and Macaluso), Oct., 1226
Stab wounds and personal identity determined from skeletal remains: a case from Kansas (Frayer and Bridgens), Jan., 232

Hyperthermia
Fatal malignant hyperthermia as a result of ingestion of tranylcypromine (Parnate®) combined with white wine and cheese (Mirchandani and Reich), Jan., 217

I-J

Identification of a murder weapon by a peculiar blunt force injury pattern and histochemical analysis (Zugibe and Costello), Jan., 239

Illegal drug sales

Immunoassay
Identification of fetal blood stains by enzymelinked immunosorbent assay for human alpha-fetoprotein (Katsumata, Sato, Tamaki, Tsutsumi, Yada, and Oya), Oct., 1210

Immunofixation
Immunofixation of complement component C3 phenotypes in bloodstains after cellulose acetate electrophoresis (Morrison, Nopponger, and Brown), Oct., 1221

Injuries
Identification of a murder weapon by a peculiar blunt force injury pattern and histochemical analysis (Zugibe and Costello), Jan., 239
Unusual penetrating head wound by a yard broom and its medicolegal aspects (Bhootra), April, 567

Inks
Ballpoint ink age determination by volatile component comparison—a preliminary study (Stewart), April, 405
Erasable ink: its ease of erasability and its permanence (Throckmorton), April, 526

Isoheroin
Analytical characterization of isoheroin (Beazley), July, 915

Isotachophoresis
Isotachophoretic analysis of bloodstains: differentiation of human, menstrual, bovine, and ovine bloods (Alsawaf and Tu), July, 822

Journal of Forensic Sciences
Evaluation of criminalists' attitudes toward the Journal of Forensic Sciences (Shapiro and Angelos), Jan., 269

Jurisprudence
Distribution of staff time between treatment and security functions for a maximum security forensic service: a preliminary report (Miller, Schmidt, Eklot, Morrow, and Schwartz), Oct., 1238
Fates of assailants of U.S. presidents (Felthous), Jan., 31
In the land of Agog: an allegory for the expert witness (Starrs), April, 289
Legal legacy of the resurrectionists (Spencer), April, 579
Medical diagnosis versus legal determination of death (Gorman), Jan., 150
Medicolegal problems of elopement from psychiatric units (Molnar, Keitner, and Swindall), Jan., 44
Psychiatric evaluations of sexual offenders (Packard and Rosner), July, 715
Qualifying the psychiatrist as a lay witness: a reaction to the American Psychiatric Association petition in Barefoot v. Estelle (Bennett and Sullwold), April, 462
Unusual penetrating head wound by a yard broom and its medicolegal aspects (Bhootra), April, 567
L

Laboratories
Capabilities, uses, and effects of the nation's crime laboratories (Peterson, Mihajlovic, and Bedrosian), Jan., 10
Lasers
Comparison of argon-ion, copper-vapor, and frequency-doubled neodymium:yttrium aluminum garnet (ND:YAG) lasers for latent fingerprint development (Menzel), April, 383
Laser detection of latent fingerprints: difficult surfaces (Burt and Menzel), April, 364

The last word society
Legal legacy of the resurrectionists (Spencer), April, 579

Letters to the editor
Author's response (Fong), July, 603
Author's response (Hilton), Jan., 8
Authors' response (Kobilinsky and Sheehan), April, 310
Author's response (Krauss), July, 601
Authors' response (Mirchandani, Mirchandani, and House), Jan., 4
Author's response (Mitchell), April, 315
Authors' response (Siek and Rieders), Jan., 6
Author's response (Van Kirk), April, 315
Discussion of "a scientific approach to documenting evidence for accident reconstruction" (Kuperstein), April, 315
Discussion of "determination of carboxyhemoglobin in the presence of other blood hemoglobin pigments by visible spectrophotometry" (Athanaselis, Spiliopoulos, and Michalodimitrakis), Jan., 5
Discussion of "electrocrution by street lighting" (Beland), April, 311
Discussion of "fiber evidence: laboratory methods and observations from casework" (Rowe), July, 602
Discussion of "how individual are personal writing habits" (Niyogi), Jan., 6
Discussion of "photographic techniques of concern in metric bite mark analysis" (Ebert and Campbell), July, 599
Discussion of "procedures and responsibilities in forensic toxicology—to what extent are they the results of laboratory facilities?" (Rajs and Högberg), Jan., 9
Discussion of "sudden infant death syndrome: measurement of total and specific serum immunoglobulin E (IgE)" (Raven), Jan., 3
Discussion of "the desirability of a Ph.D. program in forensic science" (Blanke), April, 309
Electrophoresis in forensic science (Baxter), Oct., 994
Laboratory management: preliminary analysis of narcotics evidence (Fisher), Oct., 985
Marijuana testing and litigation (McBay), Oct., 987
Quality assurance—considerations in the expression of professional evaluations from examinations (Bradford), Oct., 981
Request for information (Mazer and Mazer), Oct., 995

Lidocaine
Concentrations of lidocaine and monoethylglycylxlylidide (MEGX) in lidocaine associated deaths (Peat, Deyman, Crouch, Margot, and Finkle), Oct., 1048

Lithotripsy
Air embolism complicating percutaneous ultrasonic lithotripsy (Robin), Oct., 1284

Luminescence
Fluorescence of petroleum products. Three-dimensional fluorescence plots of motor oils and lubricants (Siegel, Fisher, Glin, Spadafora, and Krupp), July, 741

M-O

Marijuana
Cannabinoids in blood and urine after passive inhalation of Cannabis smoke (Merland, Bugge, Skuterud, Steen, Wethe, and Kjeldsen), Oct., 997
Cannabis: pharmacology and interpretation of effects (Mason and McBay), July, 615
Human pulmonary histopathological changes from marijuana smoking (Morris), April, 345
Mass disasters—see Human identification
Mass spectrometry—see Spectroscopic analysis
Mecloqualone
Isolation and identification of precursors and reaction products in the clandestine manufacture of methaqualone and mephaqualone (Angelos and Meyers), Oct., 1022
Medical personnel
Medical diagnosis versus legal determination of death (Gorman), Jan., 150
Physicians' confusion demonstrated by competency requests (Weinstock, Copelan, and Bagheri), Jan., 37
Medicolegal history
Legal legacy of the resurrectionists (Spencer), April, 579

Mental illness
Forensic psychiatric evaluations of women accused of felonies: a three-year descriptive study (Rosen, Wiederlight, and Wieczorek), July, 721
Mental retardation
Mental retardation, organic brain dysfunction, and the forensic clinician: some practical considerations (Travin, Klein, and Protter), Oct., 1179

Methanol
Methanol intoxication: distribution in postmortem tissues and fluids including vitreous humor (Wu Chen, Donoghue, and Schaffer), Jan., 213

Methaqualone
Isolation and identification of precursors and reaction products in the clandestine manufacture of methaqualone and mephaqualone (Angelos and Meyers), Oct., 1022

Microscopy
Scanning electron microscopy study of the lung in drowning (Torre and Varetto), April, 456
Microscopy—Continued
Ultrastructure of the electric burn in man: a transmission electron microscopy-scanning electron microscopy study (Torre and Varetto), April, 448

Morphine
Determination of cross-reactant drugs with a new morphine radioimmunoassay procedure (Matejczyk and Kosinski), July, 677

Musculoskeletal system
Age estimation from the rib by phase analysis: white females (Jean, Loth, and Wright), July, 853
Asymmetrical remodelling of two neurosurgical burr holes: a case study (Sauer and Dunlap), July, 953
Calcification and ossification in the arytenoid cartilage: incidence and patterns (Curtis, Allman, Brion, Holborow, and Brahman), Oct., 1113
Case involving differentiation of deer and human bone fragments (Owsley, Mires, and Keith), April, 572
Determination of sex with a discriminant analysis of new pelvic bone measurements: Part II (Schulte-Ellis, Hayek, and Schmidt), Jan., 178
Metropolitan forensic anthropology team (MFAT) case studies in identification: 3. identification of John J. Sullivan, the missing journalist (Zugibe, Taylor, Weg, DiBennerdo, Costello, and DeForest), Jan., 221
Osteometric analysis of sexual dimorphism in the sternal end of the rib (Jean), Oct., 1190

Naphtha
Homicide by intravenous injection of naphtha (Case, Poklis, and Mackell), Jan., 208

Narcotics
Drug and chemical related deaths: incidence in the State of Maryland—1975 to 1980 (Caplan, Ottinger, Park, and Smith), Oct., 1012

Neuropsychology
Mental retardation, organic brain dysfunction, and the forensic clinician: some practical considerations (Travin, Klein, and Protter), Oct., 1179

Ninhydrin
Latent fingerprint development by frequency-doubled neodymium:yttrium aluminum garnet (Nd:YAG) laser: benzof/ninhydrin (Menzel and Almog), April, 371

Not guilty by reason of insanity
Adjustment of the not guilty by reason of insanity (NGRI) outpatient: an initial report (Cavanaugh and Wasylw), Jan., 24

Nuclear magnetic resonance—see Chemical analysis

Odontology—Continued
flight 759 (Barsley, Carr, Cottone, and Cuminale), Jan., 128
Two bite mark cases with inadequate scale references (Bernstein), July, 958

Paints
Pyrolysis capillary gas chromatography/mass spectrometry for analysis of automotive paints (McMinn, Carlson, and Munson), Oct., 1064

Pathology and biology
Air embolism complicating percutaneous ultrasonic lithotripsy (Robin), Oct., 1284
Biochemical changes of the synovial liquid in corpses with regard to the cause of death: 1: calcium, inorganic phosphorus, glucose, cholesterol, urea nitrogen, uric acid, proteins, and albumin (More and Arroyo), April, 541
Bone marrow emboli versus fat emboli as the cause of unexpected death (Perrot and Froede), April, 338
Calcification and ossification in the arytenoid cartilage: incidence and patterns (Curtis, Allman, Brion, Holborow, and Brahman), Oct., 1113
Cardiovascular abnormalities in children: a ten-year forensic pathologic study (Rajs), Oct., 1157
Childhood suicide: a report of four cases (Copeland), July, 965
Cocaine-induced psychosis and sudden death in recreational cocaine users (Wettl and Fishbain), July, 873
Collection of trace evidence from bombing victims at autopsy (Laposata), July, 789
Concentrations of lidocaine and monoethylglycylxlydide (MEGX) in lidocaine associated deaths (Peat, Deyman, Crouch, Margot, and Finkle), Oct., 1048
Correlation of circumstances with pathological findings in asphyxial deaths by hanging (Luke, Reay, Eisele, and Bonnell), Oct., 1140
Death at high altitude in the hypobaric chamber (Spencer, Dixon, and Wright), Jan., 243
Decomposition of buried bodies and methods that may aid in their location (Rodriguez and Bass), July, 836
Determination of ABH secretor status by an electronic quantitation method (Matsuzawa, Kobayashi, Kobayashi, and Suzuki), July, 898
Discontinuous polyacrylamide gel electrophoresis for typing haptoglobin in bloodstains (Budowle and Chow), July, 893
Effect of sodium fluoride on cholinesterase activity in postmortem blood (Baselt, Shaw, and McEvily), Oct., 1206
Effects of freezing and frozen storage on histologi-
Pathology and biology—Continued
cal characteristics of canine tissues (Baraibar and Schoning), April, 439
Epidemic of cocaine associated deaths in Utah (Sander, Ryser, Lamoreaux, and Raleigh), April, 478
Evaluation of antisera for bloodstain grouping I. ABH, MN, and Rh (Gaensslen, Lee, Pagliaro, and Bremer), July, 632
Evaluation of antisera for bloodstain grouping II. Ss, Kell, Duffy, Kidd, and Gm/Km (Gaensslen, Lee, Pagliaro, Bremer, and Carroll-Reho), July, 655
Examination of the correlation of groupings in blood and semen (Fowler and Scott), Jan., 103
Fatal acute selenium toxicity (Pentel, Fletcher, and Jentzen), April, 556
Fatal in utero salicylism (Rejent and Balk), July, 942
Fatal occupational accidents—the five-year Metro Dade County experience, 1979-1983 (Cope-land), April, 494
Fatal strychnine poisoning—a case report and review of the literature (Perper), Oct., 1248
Human pulmonary histopathological changes from marijuana smoking (Morris), April, 345
Identification of fetal blood stains by enzyme-linked immunosorbent assay for human α-fetoprotein (Katsumata, Sato, Tamaki, Tsutsumi, Yada, and Oya), Oct., 1210
Incident at Tuol Chrey: pathologic and toxicologic examinations of a casualty after chemical attack (Stahl, Green, and Farnum), April, 317
Infanticide by starvation: calculation of caloric deficit to determine degree of deprivation (Meade and Brissie), Oct., 1263
Isotachophoretic analysis of bloodstains: differentiation of human, menstrual, bovine, and ovine bloods (Alsawaf and Tu), July, 822
Mechanical failure of a mitral valve prosthesis: an unusual case of sudden unexpected death (Clark), April, 552
Multiple deaths resulting from shipboard exposure to trichlorotrifluoroethane (Clark, Jones, Robinson, and Lord), Oct., 1256
Osteometric analysis of sexual dimorphism in the sternal end of the rib (Iscan), Oct., 1190
Postmortem redistribution of digoxin in rats (Koren and MacLeod), Jan., 92
Procedure for the investigation of anesthetic/surgical deaths (Reay, Eisele, Ward, Horton, and Bonnell), July, 822
Rare suicidal case of a ten-year-old child stabbing himself in the throat (Hasekura, Kukushima, Yonemura, and Ota), Oct., 1210
Scanning electron microscopy study of the lung in drowning (Torre and Varetto), April, 456
Secreted blood group substances: distributions in semen and stabilities in dried semen stains (Baechtel), Oct., 1119
Simultaneous electrophoretic determination of phosphoglucomutase subtypes, adenosine deaminase, erythrocyte acid phosphatase, and
Pathology and biology—Continued
adenylate kinase enzyme phenotypes (Wolson and Stuver), July, 904
Strut fracture in a Bjork-Shiley aortic valve prosthesis (Lifsultz and Donoghue), Oct., 1244
Sudden death caused by embolization of trophoblast from hydatidiform mole (Cohle and Petty), Oct., 1279
Sudden death in hemodialysis patients (Cohle and Graham), Jan., 158
Sudden infant death with periventricular leukomalacia (Allen), Oct., 1260
Ultrastructure of the electric burn in man: a transmission electron microscopy-scanning electron microscopy study (Torre and Varetto), April, 448
Unusual penetrating head wound by a yard broom and its medicolegal aspects (Bhootra), April, 567
Variations in vitreous humor chemical values as a result of instrumentation (Coe and Apple), July, 823
Pens
Ballpoint ink age determination by volatile component comparison—a preliminary study (Stewart), April, 405
Felt tip pen writing: problems of identification (Masson), Jan., 172
Periventricular leukomalacia
Sudden infant death with periventricular leukomalacia (Allen), Oct., 1260
Petroleum products
Fluorescence of petroleum products I. three-dimensional fluorescence plots of motor oils and lubricants (Siegel, Fisher, Gilna, Spadafora, and Krupp), July, 741
Phosphoglucose isomerase
Phenotyping phosphoglucose isomerase in West Coast cervids for species identification and individualization (Pex and Wolfe), Jan., 114
Photography
Forensic science use of reflective ultraviolet photography (Krauss and Warlen), Jan., 262
Physical anthropology
Age estimation from the rib by phase analysis: white females (Iscan, Loth, and Wright), July, 853
Analysis of a prehistoric homicide from Northern California (Murad and Mertz), July, 948
Asymmetrical remodelling of two neurosurgical burr holes: a case study (Sauer and Dunlap), July, 953
Case involving differentiation of deer and human bone fragments (Owsley, Mires, and Keith), April, 572
Determination of sex with a discriminant analysis of new pelvic bone measurements: Part II (Schulter-Ellis, Hayek, and Schmidt), Jan., 178
Metropolitan forensic anthropology team (MFAT) case studies in identification: 3. identification of John J. Sullivan, the missing journalist (Zugibe, Taylor, Weg, DiBennerdo, Costello, and DeForest), Jan., 221
Physical anthropology—Continued
Stab wounds and personal identity determined from skeletal remains: a case from Kansas (Frayer and Bridgens), Jan., 232

Physical evidence
Occurrence of trace evidence in one examiner’s casework (Petraco), April, 485

Physicians—see Medical personnel

Poisons
Fatal strychnine poisoning—a case report and review of the literature (Perper), Oct., 1248

Postage stamps
Comparison of round-hole perforations of postage stamps (Casey Owens), Oct., 1272

Postmortem examinations
Cardiovascular abnormalities in children: a ten-year forensic pathologic study (Rajs), Oct., 1157

Decomposition of buried bodies and methods that may aid in their location (Rodriguez and Bass), July, 836

Postmortem redistribution of digoxin in rats (Koren and MacLeod), Jan., 92

Pregnancy
Fatal in utero salicylism (Rejent and Balk), July, 942

Probability
Effect of differences in gene frequency on probability of paternity (Reading and Reisner), Oct., 1130

Prosthetic devices
Mechanical failure of a mitral valve prosthesis: an unusual case of sudden unexpected death (Clark), April, 552

Strut fracture in a Bjork-Shiley aortic valve prosthesis (Lifschultz and Donoghue), Oct., 1244

Protocols
Identification of fetal blood stains by enzyme-linked immunosorbent assay for human α-fetoprotein (Katsumata, Sato, Tamaki, Tsutsumi, Yada, and Oya), Oct., 1210

Pyrolysis capillary gas chromatography/mass spectrometry for analysis of automotive paints (McMinn, Carlson, and Munson), Oct., 1064

Pyrolysis products of heroin (Cook and Brine), Jan., 251

Psychiatry—Continued
Schmidt, Eklof, Morrow, and Schwanz), Oct., 1238

Fates of assailants of U.S. presidents (Felthous), Jan., 31

Female homicide-suicide perpetrators: a controlled study (Fishbain, Rao, and Aldrich), Oct., 1148

Forensic psychiatric evaluations of women accused of felonies: a three-year descriptive study (Rosner, Wiederlight, and Wieczorek), July, 721

Geriatric felons examined at a forensic psychiatry clinic (Rosner, Wiederlight, and Schneider), July, 730

Medicolegal problems of elopement from psychiatric units (Molnar, Keitner, and Swindall), Jan., 44

Mental retardation, organic brain dysfunction, and the forensic clinician: some practical considerations (Travin, Klein, and Potter), Oct., 1179

Physicians’ confusion demonstrated by competency requests (Weinstock, Copelan, and Bagheri), Jan., 37

Psychiatric evaluations of sexual offenders (Packard and Rosner), July, 715

Qualifying the psychiatrist as a lay witness: a reaction to the American Psychiatric Association Petition in Barefoot v. Estelle (Bennett and Sullwold), April, 462

Women and arson: a demographic study (Harmon, Rosner, and Weiderlight), April, 567

Pyrolysis
Pyrolysis capillary gas chromatography/mass spectrometry for analysis of automotive paints (McMinn, Carlson, and Munson), Oct., 1064

Pyrolysis products of heroin (Cook and Brine), Jan., 251

Q-S

Questioned documents
Ballpoint ink age determination by volatile component comparison—a preliminary study (Stewart), April, 405

Brain function and writing with the unaccustomed left hand (Dawson), Jan., 167

Comparison of round-hole perforations of postage stamps (Casey Owens), Oct., 1272

Erasable ink: its ease of erasability and its permanence (Throckmorton), April, 526

Felt tip pen writing: problems of identification (Masson), Jan., 172

Radar
Technical shortcomings of Doppler traffic radar (Goodson), Oct., 1186

Radioimmunoassay
Determination of cross-reactant drugs with a new morphine radioimmunoassay procedure (Matejczyk and Kosinski), July, 677

Digoxin-like immunoreactive substance in postmortem blood of infants and children (Spiehler, Fischer, and Richards), Jan., 86
Refractive index
Factors affecting the refractive index distribution of window glass (Brown), July, 806

Robbery
Diagnostic study of robbers (Harry), Jan., 50

Salicylate
Fatal in utero salicylism (Rejent and Baik), July, 942

Saliva
Determination of ABH secretor status by an electronic quantitation method (Matsuzawa, Kobayashi, Kobayashi, and Suzuki), July, 898

Scanning electron microscopy—see Microscopy

Screening procedure
Evaluation of fused silica capillary columns for the screening of basic drugs in postmortem blood: qualitative and quantitative analysis (Koves and Wells), July, 692

Security
Distribution of staff time between treatment and security functions for a maximum security forensic service: a preliminary report (Miller, Schmidt, Ekiof, Morrow, and Schwanz), Oct., 1238

Selenium
Fatal acute selenium toxicity (Pentel, Fletcher, and Jentzen), April, 556

Semen
Evaluation of gamma-glutamyl transpeptidase (GGT) and p30 determinations for the identification of semen on postcoital vaginal swabs (Stubbings and Newall), July, 604

SeroLOGY
Examination of the correlation of groupings in blood and semen (Fowler and Scott), Jan., 103

Secreted blood group substances: distributions in semen and stabilities in dried semen stains (Baechtel), Oct., 1119

Sex determination—see Human identification

Shotguns
Pellet patterns fired by sawed-off shotguns (Moreau, Nichols, Wray, Bottemiller, and Rowe), Jan., 137

SkeletOns—see Human identification or musculo-skeletal system

Skin
Ultrastructure of the electric burn in man: a transmission electron microscopy-scanning electron microscopy study (Torre and Varetto), April, 448

Sodium fluoride
Effect of sodium fluoride on cholinesterase activity in postmortem blood (Baselt, Shaw, and MeEvily), Oct., 1206

Soils
Analysis of soil samples by reverse phase-high performance liquid chromatography using wavelength ratioint (Siegel and Precord), April, 511

Statistical method for assessing soil comparisons

Soils—Continued
(Wanogho, Gettintby, Caddy, and Robertson), July, 864

Solubility
Technique for the rapid isolation and identification of psilocin from psilocin/psilocybin-containing mushrooms (Lee), July, 931

Spectroscopic analysis—see also Chemical analysis
Analysis of explosives by tandem mass spectrometry (McLuckey, Glish, and Carter), July, 773

Analytical characterization of isoheroin (Beazley), July, 915

Measurement of human hair oxidation by Fourier transform infrared spectroscopy (Brenner, Squires, Garry, and Tumosa), April, 420

Stab wounds
Rare suicidal case of a ten-year-old child stabbing himself in the throat (Hasekura, Kukushima, Yonemura, and Ota), Oct., 1269

Stab wounds and personal identity determined from skeletal remains: a case from Kansas (Frayer and Bridgens), Jan., 232

Suffocation
Infanticide by starvation: calculation of caloric deficit to determine degree of deprivation (Meade and Brissie), Oct., 1263

Strychnine
Fatal strychnine poisoning—a case report and review of the literature (Perper), Oct., 1248

Sudden death infant syndrome
Sudden infant death with periventricular leukomalacia (Allen), Oct., 1260

Suicide
Childhood suicide: a report of four cases (Cope-land), July, 965

Suffocation
Fatal strychnine poisoning—a case report and review of the literature (Perper), Oct., 1248

Female homicide-suicide perpetrators: a controlled study (Fishbain, Rao, and Aldrich), Oct., 1148

Rare suicidal case of a ten-year-old child stabbing himself in the throat (Hasekura, Kukushima, Yonemura, and Ota), Oct., 1269

Surveys
Capabilities, uses, and effects of the nation’s criminalistics laboratories (Peterson, Mihajlovic, and Bedrosian), Jan., 10

Drug and chemical related deaths: incidence in the State of Maryland—1975 to 1980 (Caplan, Ottinger, Park, and Smith), Oct., 1012

Evaluation of criminalists’ attitudes toward the Journal of Forensic Sciences (Shapiro and Angelos), Jan., 269

Female homicide-suicide perpetrators: a controlled study (Fishbain, Rao, and Aldrich), Oct., 1148

Solid dosage forms: 1975-1983 (Franzosa), Oct., 1194

Synovial liquid
Biochemical changes of the synovial liquid in corpses with regard to the cause of death. 1: calcium, inorganic phosphorus, glucose, choles-
Synovial liquid—Continued

trol, urea nitrogen, uric acid, proteins, and albumin (More and Arroyo), April, 541

Biochemical changes of the synovial liquid of corpses with regard to the cause of death. 2. alkaline phosphatase, lactic acid dehydrogenase (LDH), and glutamic oxalacetic transaminase (GOT) (More and Arroyo), April, 547

Tagging

Use of *bacillus subtilis* var. *aterrimus* in a new method of tagging (Davidson, Best, and Oliver), April, 531

Testimony

Qualifying the psychiatrist as a lay witness: a reaction to the American Psychiatric Association Petition in *Barefoot v. Estelle* (Bennett and Sulfwold), April, 462

Tetrahydrocannabinol

Cannabinoids in blood and urine after passive inhalation of *Cannabis* smoke (Morland, Bugge, Skuterud, Steen, Wethe, and Kjeldsen), Oct., 997

Thermal analysis

Aspects of the investigation of the chemical processes of self-heating as a fire cause by means of quantitative thermal analysis (Hellmoss and Schwanebeck), April, 535

Thermogravimetry—see Thermal analysis

Tissues (biology)

Effects of freezing and frozen storage on histological characteristics of canine tissues (Baralbar and Schoning), April, 439

Toxicology

Analytical characterization of isoheroin (Beazley), July, 915

Aqueous-organic extraction method for the isolation and identification of psilocin from hallucinogenic mushrooms (Casale), Jan., 247

Brain concentrations of cocaine and benzoylcegonine in fatal cases (Spiehler and Reed), Oct., 1003

Cannabinoids in blood and urine after passive inhalation of *Cannabis* smoke (Morland, Bugge, Skuterud, Steen, Wethe, and Kjeldsen), Oct., 997

*Cannabis*: pharmacology and interpretation of effects (Mason and McBay), July, 615

Cocaine-induced psychosis and sudden death in recreational cocaine users (Wetli and Fishbain), July, 873

Concentrations of lidocaine and monethylglyclyclyclidide (MEGX) in lidocaine associated deaths (Peat, Deyman, Crouch, Margot, and Finkle), Oct., 1048

Deaths as a result of a combination of codeine and glutethimide (Havier and Lin), April, 563

Determination of cross-reactant drugs with a new morphine radioimmunoassay procedure (Matejczyk and Kosinski), July, 677

Toxicology—Continued

Di-(β-phenylisopropyl)amine in illicit amphetamine (Huizer, Brusse, and Poortman-van der Meer), April, 427

Digoxin-like immunoreactive substance in postmortem blood of infants and children (Spiehler, Fischer, and Richards), Jan., 86

Drug and chemical related deaths: incidence in the State of Maryland 1975 to 1980 (Caplan, Ottinger, Park, and Smith), Oct., 1012

Effect of sodium fluoride on cholinesterase activity in postmortem blood (Baselt, Shaw, and McEvily), Oct., 1206

Epidemic of cocaine associated deaths in Utah (Sander, Ryser, Lamoreaux, and Raleigh), April, 478

Evaluation of fused silica capillary columns for the screening of basic drugs in postmortem blood: qualitative and quantitative analysis (Koves and Wells), July, 692

Fatal malignant hyperthermia as a result of ingestion of tranylcypromine (Parnate) combined with white wine and cheese (Mirkandani and Reich), Jan., 217

1H nuclear magnetic resonance of heroin’s D ring (Allen, Cooper, and Moore), July, 908

Homicide by intravenous injection of naphtha (Case, Poklis, and Mackell), Jan., 208

Human pulmonary histopathological changes from marijuana smoking (Morris), April, 345

Illicitly imported heroin products: some physical and chemical features indicative of their origin. Part II (O’Neill and Gough), July, 681

Incident at Tuol Chrey: pathologic and toxicologic examinations of a casualty after chemical attack (Stahl, Green, and Farnum), April, 317

Intravenous amphetamine abuse, primary cerebral mucormycosis, and acquired immunodeficiency (Micozzi and Wettl), April, 504

Isolation and identification of precursors and reaction products in the clandestine manufacture of methaqualone and mecloqualone (Angelos and Meyers), Oct., 1022

Methanol intoxication: distribution in postmortem tissues and fluids including vitreous humor (Wu Chen, Donoghue, and Schaffer), Jan., 213

Multiple deaths resulting from shipboard exposure to trichlorotrifluorethane (Clark, Jones, Robinson, and Lord), Oct., 1256

Pyrolysis products of heroin (Cook and Brine), Jan., 251

Retrieval of analytical data and substance identification in systematic toxicological analysis by the mean list length approach (Franke, de Zeeuw, and Schepers), Oct., 1074

Technique for the rapid isolation and identification of psilocin from psilocin/psilocybin-containing mushrooms (Lee), July, 931

Toxicological analysis of amobarbital and glutethimide from bone tissue (Benkő), July, 945

Trace elements

Interesting gunshot residue pattern (Briner), July, 945
Trace evidence
Collection of trace evidence from bombing victims at autopsy (Laposata), July, 789
Occurrence of trace evidence in one examiner's casework (Petraco), April, 485

Tranylcypromine
Fatal malignant hyperthermia as a result of ingestion of tranylcypromine (Parnate®) combined with white wine and cheese (Mirchandani and Reich), Jan., 217

Trauma—see Injuries

Trichlorotrifluoroethane
Multiple deaths resulting from shipboard exposure to trichlorotrifluorethane (Clark, Jones, Robinson, and Lord), Oct., 1256

Trichotheccene mycotoxins
Incident at Tuol Chrey: pathologic and toxicologic examinations of a casualty after chemical attack (Stahl, Green, and Farnum), April, 317

Trophoblast
Sudden death caused by embolization of trophoblast from hydatidiform mole (Cohie and Petty), Oct., 1279

U–X

Ultraviolet photography—see Photography

Urine
Blood alcohol concentration determined from urine samples as a practical equivalent or alter-

Urine—Continued
native to blood and breath alcohol tests (Biasotti and Valentine), Jan., 194

Vitreous humor
Methanol intoxication: distribution in postmortem tissues and fluids including vitreous humor (Wu Chen, Donoghue, and Schaffer), Jan., 213
Variations in vitreous humor chemical values as a result of instrumentation (Coe and Apple), July, 823

Witnesses
In the land of Agog: an allegory for the expert witness (Starrs), April, 289
Qualifying the psychiatrist as a lay witness: a reaction to the American Psychiatric Association petition in Barefoot v. Estelle (Bennett and Sullwold), April, 462

Wound ballistics
Effects of range, caliber, barrel length, and rifling on pellet patterns produced by shotshell ammunition (Speak, Kerr, and Rowe), April, 412
Study of .22 caliber rimfire exploding bullets: effect in ordnance gelatin (Josselson, Johnson, Washington, Wagner, Garner, Johnson, and Lundy), July, 760

X-ray analysis
Calcification and ossification in the arytenoid cartilage: incidence and patterns (Curtis, Allman, Brion, Holborow, and Brahman), Oct., 1113
Shadow positioning technique: a method for postmortem identification (Fitzpatrick and Macaulay), Oct., 1226
