<td>Complete Set of Book of ASTM Standards</td>
<td>$4,600.00 (Prepaid)†</td>
</tr>
<tr>
<td>Complete Sections at Member Price</td>
<td>No Limit</td>
</tr>
<tr>
<td>Annual Subscription to ASTM STANDARDIZATION NEWS</td>
<td>1 Free</td>
</tr>
</tbody>
</table>

In addition you will also receive:

- Reduced Symposium Registration Fees
- Other Publications at Member Prices
- Advance Information about Standards & Activities

Membership year is January 1 to December 31. Fees are payable in advance and are not prorated. Membership will become effective upon payment of fees.

* Administrative fee payments made to ASTM are not tax deductible as charitable contributions for federal income tax purposes.

† Canadian Members – Please add 7% GST – Registration Number R129162244.

**NOTE:** Membership benefits are subject to change.
Information for Contributors

The Journal of Testing and Evaluation (JOTE) is issued bimonthly by ASTM. Each published paper and technical note is peer-reviewed. The guidelines below offer suggestions to authors and describe our manuscript selection, peer review, revision, and publication processes. Authors who adhere to these suggestions will ensure expeditious handling of submitted material.

Preparation of the Manuscript*

The submitted manuscript should be typewritten or printed, in English, on one side of a sheet only, double-spaced, with wide margins (at least 1 in. (2.5 cm)) on all sides. Pages must be consecutively numbered in single sequence—text, tables, and figures.

Five copies of the original manuscript are needed, each including clear copies of any figures.

The text should include an informative abstract of 100–150 words and a list of 5–10 keywords that can be used to index the contents of the manuscript.

ASTM policy requires the use of SI units in all publications (and in their included tables and figures). If English units must be used to present test results or to describe materials, equivalent SI units should follow in parentheses. Refer to ASTM E 380, Standard Practice for Use of the International System of Units (SI) (The Modernized Metric System) for further information and examples.

Commercialism may be avoided by the use of generic terms where possible. Trademarks and trade names should be properly identified as such, if they are used.

References should be cited in the text in numeric order. Type the numerical citation on the line, not as a superscript, and enclose in square brackets. The references should be listed together at the end of the text, in consecutive order, with enough information to allow a reader to find the cited item. See a recently published article in the Journal for the conventions used for papers, reports, books, and computer programs.

All tables should be placed together following the text and references. Tables should be identified with Arabic (not Roman) numbers, and cited in numerical order in the text. It is better to use several simple tables than one large, complex table.

All figures (graphs, illustrations, photographs) should be placed together following text and tables. A separate sheet of figure captions should precede the figures. Figures should be identified with consecutive Arabic (not Roman) numbers. Type size must be large enough to be legible after reduction. All lettering, lines, and symbols must be drawn with opaque black ink on white paper. The axes of each graph must be properly labeled, with specific units. Computer-produced graphs or illustrations must be made using a laser printer (not an impact printer). Photographs must be high-contrast black-and-white. All micrographs, and all figures that are representations of equipment or specimens, must include scale marks.

*For complete instructions for the preparation of manuscripts and a sample manuscript contact Barbara Stafford, Administrative Assistant, ASTM Journals, (610) 832-9621 or FAX (610) 832-9622.

editorial office not hear from the author in the designated response time, approval is assumed and publication proceeds.

Other Published Items

Some items appear in the *Journal* without peer review. Thus, brief comments on a previously published article, the authors' response to these comments, and critical reviews of books or computer programs require the approval only of the Technical Editor.

Dr. Donald R. Petersen
Technical Editor
