Materials Performance and Characterization

Issues:
Special Issue on Materials for Extreme Environments, Part 2

Guest Editors: S. V. S. Narayana Murty and Richard W. Neu

Contents:

1 Editorial: Special Issue on Materials for Extreme Environments, Part 2—S. V. S. Narayana Murty and Richard W. Neu

REVIEW PAPERS

139 Stress Corrosion Cracking in Austenitic Stainless Steels in Reactor Primary Water—High Purity Oxidizing and in Supercritical Conditions—Arnesha Das, Supratik Roy Chowdhury, and Vivekanand Kam

157 Corrosion Behavior of Surface Nanostructured IN718 Superalloy at 650°C—Soniye Kumar, K. Chaddapathy, Z. Alam, Vakil Singh, D. V. V. Satyanarayana, and Vikas Kumar

171 Active Protection of Magnesium Alloy AZ91D Using Corrosion Inhibitor Encapsulated Halloysite Nanoclay-Based Smart Sol-Gel Coatings—Swapnil H. Adsul, Shirish H. Sonawane, and R. Subbasi

186 Improving the Corrosion Resistance of Magnesium Alloy AZ21 by a Duplex Anodized and Sol-Gel Coating—K. Pradeep Prem Kumar and R. Subbasi

1 Editorial: Special Issue on Materials for Extreme Environments, Part 2—S. V. S. Narayana Murty and Richard W. Neu

REVIEW PAPERS

109 Thermo-Oxidative Behavior of Four-Directional Carbon-Carbon Composites as Thrust Inserts for Solid Propulsion Systems—Jhon Poul, P. B. Santhosh, E. N. Ananthapadmanabhan, and P. K. Das

139 Stress Corrosion Cracking in Austenitic Stainless Steels in Reactor Primary Water—High Purity Oxidizing and in Supercritical Conditions—Arinesha Das, Supratik Raychowdhury, and Vivekanand Kam

157 Corrosion Behavior of Surface Nanostructured IN718 Superalloy at 650°C—Soniye Kumar, K. Chittapalli, A. Alom, Vaki Singh, D. V. V. Satyanarayana, and Vikas Kumar

171 Active Protection of Magnesium Alloy AZ91D Using Corrosion Inhibitor Encapsulated Halloysite Nanoclay-Based Smart Sol-Gel Coatings—Swapnil H. Adsul, Shrish H. Sonawane, and R. Subasri Woodside

186 Improving the Corrosion Resistance of Magnesium Alloy AZ21 by a Duplex Anodized and Sol-Gel Coating—K. Pradeep Prem Kumar and R. Subasri

EDITOR-IN-CHIEF
Dr. Richard W. Neu
Georgia Institute of Technology
Atlanta, GA, USA

EDITORIAL OBJECTIVES
Materials Performance and Characterization (MPC) is published online by ASTM International, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services.

Contributions are peer reviewed prior to publication.

PURPOSE AND SCOPE
The journal publishes high-quality, original articles, including full papers, review papers, and technical notes, on both theoretical and practical aspects of the processing, structure, properties, and performance of materials used in mechanical, transportation, aerospace, energy systems, and medical devices. These materials include metals and alloys, glass and ceramics, polymers, composite materials, textiles, and nanomaterials. The journal covers topics related to the integrity of materials which encompasses mechanical testing, fatigue and fracture, corrosion, wear, and erosion, as well as the integrity of components and systems such as rolling element bearings, piping and pressure vessels, fasteners, space technology, and nanotechnology. The journal publishes articles on both qualitative and quantitative methods used to characterize materials including all forms of microscopy, chemical analysis, and nondestructive evaluation.

Printed in the USA.
INFORMATION FOR AUTHORS
For details regarding paper submission go to http://mc04.manuscriptcentral.com.

The subject matter must not be of a speculative nature and the contents must not include materials of an advertising nature. The paper must not be seriously defective as to literary form and structure, continuity of thought, and clarity of expression. The substance of the paper should not have been published previously in the open literature.

Authors preparing papers for submittal should observe the conventions of style explained in the ASTM Style Manual. Since the journal does not request page charges, the author is expected to conform to these standard conventions for style.

SI units are to be used throughout; if data were not measured in SI units, a note should appear to that effect and the original units should be included in parentheses after the SI units.

IN APPRECIATION OF THE REVIEWERS
The high quality of the papers that appear in this publication is a tribute not only to the obvious efforts of the authors represented but to the unheralded, though essential, efforts of their reviewers. It is to the reviewers' dedication to upholding the high standards of their profession that this note pays tribute. On behalf of ASTM International and the authors as well, we acknowledge with appreciation their important contribution to the success of this journal.

ASTM International's Materials Performance and Characterization is ONLINE.
Take advantage of these benefits:
– Search papers & authors
– Current subscribers receive online access.
– View abstracts
– View table of contents
– Non-subscribers can download individual papers for $25.00 each
– Download individual papers
– IP access is available
