EDITORIAL OBJECTIVES
Smart and Sustainable Manufacturing Systems (SSMS) is published online by ASTM International, a nonprofit technical organization that develops and publishes voluntary consensus standards and related information for materials, products, systems, and services. Contributions are peer reviewed prior to publication.

PURPOSE AND SCOPE
This journal fosters transdisciplinary research that crosses the boundaries of information science, systems engineering and engineering design, manufacturing, and product life cycle with a focus on how to make manufacturing systems smarter and sustainable.

FOR AUTHORS
For details regarding paper
submission go to http://mc04.
manuscriptcentral.com.

The subject matter must not
be of a speculative nature and
the contents must not include
materials of an advertising
nature. The paper must not
be seriously defective as to
literary form and structure,
continuity of thought, and
clarity of expression. The
substance of the paper should
not have been published
previously in the open
literature. Authors preparing
papers for submittal should
observe the conventions
of style explained in the
ASTM Style Manual. Since
the journal does not request
page charges, the author is
expected to conform to these
standard conventions for
style. SI units are to be used
throughout; if data were not
measured in SI units, a note
should appear to that effect
and the original units should
be included in parentheses
after the SI units.

IN APPRECIATION OF THE REVIEWERS
The high quality of the papers
that appear in this publication
is a tribute not only to the
obvious efforts of the authors
represented but to the
unheralded, though essential,
efforts of their reviewers. It is
to the reviewers’ dedication to
upholding the high standards
of their profession that this note
pays tribute. On behalf of ASTM
International and the authors
as well, we acknowledge with
appreciation their important
contribution to the success of
this journal.
